Re: Yacolt Community Center Upgrades

Dear Ms. Gluesenkamp Perez,

I am writing on behalf of the Town of Yacolt to express strong support for the new Yacolt Community Center. The building will need some upgrades, which the Town does not have in their budget to complete. These upgrades include a new HVAC system, replacement of the roof, security cameras, sheetrock repairs from previous water damage, upgrading the commercial kitchen to current code, and upgrading the electrical panel for the gym area.

The entire community will use this Community Center for so many purposes: youth and adult sports programs, Meals-on-Wheels, senior activities, counseling center, medical check-ups, early childhood programs, etc., and the building is also intended to be used as a warming center in the winter and cooling center in the summer.

The modest costs involved will make a significant impact, giving the Town the space it needs to serve its residents, build community, and improve quality of life. The Town is small, and therefore so is its budget, so we are hoping to get federal funding support through your office.

Thank you for your leadership and careful consideration of this request. We urge your support for Yacolt's Community Center project and stand ready to assist as needed.

Respectfully,

Name Mckenzie Hestwood

Re: Yacolt Community Center Upgrades

Dear Ms. Gluesenkamp Perez,

I am writing on behalf of the Town of Yacolt to express strong support for the new Yacolt Community Center. The building will need some upgrades, which the Town does not have in their budget to complete. These upgrades include a new HVAC system, replacement of the roof, security cameras, sheetrock repairs from previous water damage, upgrading the commercial kitchen to current code, and upgrading the electrical panel for the gym area.

The entire community will use this Community Center for so many purposes: youth and adult sports programs, Meals-on-Wheels, senior activities, counseling center, medical check-ups, early childhood programs, etc., and the building is also intended to be used as a warming center in the winter and cooling center in the summer.

The modest costs involved will make a significant impact, giving the Town the space it needs to serve its residents, build community, and improve quality of life. The Town is small, and therefore so is its budget, so we are hoping to get federal funding support through your office.

Thank you for your leadership and careful consideration of this request. We urge your support for Yacolt's Community Center project and stand ready to assist as needed.

Respectfully,

Name

Kevin James

The building will need some upgrades, which the Town does not have in their budget to complete. These upgrades include a new HVAC system, replacement of the roof, security cameras, sheetrock repairs from previous water damage, upgrading the commercial kitchen to current code, and upgrading the electrical panel for the gym area.

The entire community will use this Community Center for so many purposes: youth and adult sports programs, Meals-on-Wheels, senior activities, counseling center, medical check-ups, early childhood programs, etc., and the building is also intended to be used as a warming center in the winter and cooling center in the summer.

The modest costs involved will make a significant impact, giving the Town the space it needs to serve its residents, build community, and improve quality of life. The Town is small, and therefore so is its budget, so we are hoping to get federal funding support through your office.

Thank you for your leadership and careful consideration of this request. We urge your support for Yacolt's Community Center project and stand ready to assist as needed.

Respectfully,

Name

Organization (optional)

Dear Congresswoman, Gluesenkamp Perez,

My name is Melissa McCoy Yahn, and I am a co-owner of Impact Automotive, as well as an active community leader in North Clark County. I am writing to express my strong personal support for the new Yacolt Community Center and to respectfully request assistance in securing funding for the necessary building upgrades.

In my role as a business owner and organizer, I regularly bring together local business owners, families, and community members for meetings, events, and collaborative efforts. One of the greatest challenges we face is the lack of a consistent, reliable space to gather. A functional and updated community center would not only meet that need, but would become a cornerstone for connection, growth, and support in our town.

While the Town of Yacolt has taken meaningful steps toward establishing this community center, critical upgrades are still needed that fall outside of the Town's limited budget. These include a new HVAC system, roof replacement, security camera installation, sheetrock repairs from prior water damage, bringing the commercial kitchen up to current code, and upgrading the electrical panel in the gymnasium.

This space will serve as far more than just a building. It will be a hub for youth and adult sports programs, Meals-on-Wheels, senior services, counseling resources, medical outreach, and early childhood programs. It is also intended to serve as a warming center in the winter and a cooling center in the summer—providing essential support during times when our most vulnerable residents need it most.

Yacolt is a small town with a big heart but limited financial resources. The investment required to complete these upgrades is modest in comparison to the long-term impact it will have on the health, safety, and connection of our community.

As someone deeply involved in both business and community development, I can confidently say this space will be used often and meaningfully. It will strengthen relationships, support local initiatives, and provide opportunities that currently do not exist due to the lack of adequate facilities.

Thank you for your leadership and for taking the time to consider this request. Your support would make a lasting difference in our community. I would be honored to assist in any way or provide additional insight into the needs and impact of this project.

With gratitude,
Melissa McCoy Yahn
Co-Owner, Impact Automotive
Community Leader, North Clark County
