FEDERAL LANDS

May 2, 2024

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Unaccompanied Housing project in fiscal year 2025. The entity to receive funding for this project is NAS Oceana. The funding would be used to construct a 12,152 m2 (130,803 SF) unaccompanied enlisted housing building for permanent party junior enlisted personnel. The UH building will provide 248 bedrooms for up to 496 personnel and will comply with UFC 4-721-10N, Navy and Marine Corps UH.

The project has a Federal nexus because the funding provided is for purposes authorized by 10 U.S.C. Chapter 169.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Jen Kiggans
Member of Congress

Project Name:

Fort Story Child Development Center - Planning and Design

Recipient Name:

JEB Little Creek-Fort Story

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$1,200,000

Project Justification:

Construct a one story (20,139 SF), energy efficient, handicapped accessible Child Development Center (CDC) to support 120 children on Joint Expeditionary Base Little Creek-Fort Story.

JEN A. KIGGANS

Member of Congress

Project Name:

Career Academies of Chesapeake

Recipient Name:

City of Chesapeake, Virginia

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$4,000,000

Project Justification:

The Chesapeake Career Center serves as the Career and Technical Education (CTE) facility for Chesapeake Public Schools. Originally opening in 1967, this facility requires updating or replacement to meet the needs of students pursuing licensure in CTE fields. Chesapeake Public Schools is seeking funding for a new facility that will allow for expansion of programming to meet local and regional workforce needs and provide students with access to state-of-the-art equipment.

The proposed model, the Career Academies of Chesapeake, will provide six career pathways that will allow students to graduate workforce-ready with industry credentials in hand.

Project Name:

Hall Place Water and Sanitary Sewer Improvements - Phase 1A

Recipient Name:

City of Suffolk, Virginia

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$3,000,000

Project Justification:

The project will construct a new sanitary sewer pump station, sewer force main, gravity sewer collection system, and a new water distribution system. Completion of the project will replace deteriorated water and sewer mains that were installed during the early to mid 1900's, eliminating potential sewer overflows and removing any lead water service lines installed when the water system was constructed. The new systems will assist the City in meeting all requirements of the Safe Drinking Water Act, specifically lead service removals, and the Clean Water Act. In addition, the project will provide improved services to the mid to low-income residents within the area.

Jen Kiggans
Member of Congress

Project Name:

Northampton County Community Center Wastewater Treatment System

Recipient Name:

Northampton County

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$1,300,000

Project Justification:

The Northampton County Community Center Wastewater Treatment System project aims to replace and upgrade the aging 1964 facultative ponds and stream discharge sanitary system, which has exceeded its lifespan. This system serves the Northampton Community Center. Additionally, the County School Administrative Offices located on the premises rely on this system.

The current system's potential failure poses a significant threat to both surface and ground water sources, endangering the health and well-being of County residents. The upgraded system will significantly reduce nitrogen, phosphorus, and fecal coliform releases into local water sources, including the nearby Chesapeake Bay, located just a few miles away. This reduction in pollutants is crucial for protecting the delicate ecosystem of the bay.

May 2, 2024

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Northampton County Community Center Waste Water Treatment System project in fiscal year 2025. The entity to receive funding for this project is Northampton County. The funding will help provide additional access to services for historically underserved populations. The enhanced system, with expanded treatment capacity, will also enable additional essential services to be provided to County Residents.

The project has a federal nexus because it is authorized under section 306 of the Consolidated Farm and Rural Development Act (Public Law 7 U.S. Code section 1926(a)(2)).

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Jen Kiggans
Member of Congress

Project Name:

City of Franklin and Southampton County Joint Public Safety Radio System

Recipient Name:

City of Franklin, Virginia

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$1,000,000

Project Justification:

The City of Franklin and Southampton County is jointly implementing a new Public Safety P25 Radio System, which will provide reliable mission critical communication for both localities' Law Enforcement, Firefighters, and EMS providers, as well as other departmental communications (i.e. Power & Light, Public Works, School system, Community Development, etc.). The new system will dramatically improve coverage (95% service area), capacity, redundancy, and interoperability necessary to prepare, respond, mitigate, and recover from any natural or manmade disasters, terrorist attacks or any local emergencies.

The funding would be used to convert a 100-acre City-owned golf course into a multi-faceted Stormwater Park for additional stormwater storage.

The project has a Federal nexus because the funding provided is for purposes authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Jen Kiggans
Member of Congress

Project Name:

Cedar Hill Cemetery Sanitary Sewer Relocation

Recipient Name:

City of Suffolk, Virginia

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$3,000,000

Project Justification:

The project, which conveys a larger percentage of the City's downtown area sewer flows, lies within the Resource Management Area of the Chesapeake Bay Preservation Area. The replacement of the compromised sanitary sewer main will reduce the probability of impacts to water quality by reducing potential for sanitary sewer overflows. Any discharge from the aging sewer is a violation of the Clean Water Act.

The project will replace a 15-inch vitrified clay sewer main that has several alignment and material defects impacting the pipeline capacity. Sanitary sewer discharges have occurred previously during storm events having potential impacts to the water quality within the abutting stream. The stream flows to the Nansemond River which is a tributary of the Chesapeake Bay. Replacement of the sewer main will provide the sufficient capacity to minimize any potential for release of wastewater to the stream and ultimately the Chesapeake Bay watershed. The Chesapeake Bay and its tributaries are home to many aquatic species, which are harvested for consumption. Protection of the water quality benefits all communities who depend on the Bay's improved water quality.

Member of Congress

Project Name:

Accomack County Energy Expansion

Recipient Name:

Chesapeake Utilities

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$7,400,000

Project Justification:

This project will consist of a 48.5 miles extension to expand energy delivery infrastructure into Accomack County and the Commonwealth of Virginia. The project aims for efficient and cost-effective expansion to an underserved county by leveraging an existing Maryland natural gas pipeline. Notably, Tyson, Perdue, NASA Wallops Flight Facility, and neighboring enterprises have been identified as potential anchor customers.

The investment of \$7.4M will establish a fully permitted energy infrastructure expansion project into Accomack County. This project will create 143 jobs, generate \$7M in labor income and sustain \$6.9M savings in fuel cost for existing businesses.

Project Name:

Onancock Wastewater Treatment Plant Solids Handling Improvements

Recipient Name:

Hampton Roads Sanitation District

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$6,624,248

Project Justification:

Hampton Roads Sanitation District (HRSD) recently acquired the Onancock Wastewater Treatment Plant (WTP) and quickly identified the solids handling processes as the primary bottleneck at the facility, creating operational and treatment issues at the plant which are not sustainable. The existing solids handling process equipment has reached the end of its useful life and cannot achieve its design capacity which is detrimental to the biological treatment process. If the biological treatment process cannot function properly, this could negatively impact the effluent water quality to the Chesapeake Bay and surrounding waterways. The requested funding is for the necessary upgrades, and supports the public health, environment, economy, and quality of life on the Eastern Shore.

Project Name:

Norfolk Harbor Operations and Maintenance

Recipient Name:

Virginia Port Authority

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$10,445,000

Project Justification:

This request fully fund's the Norfolk District's capability of \$51,305,000 to Operate and Maintain the Norfolk Harbor Federal Navigation Project. The amount includes both Norfolk Harbor Channel and Norfolk Harbor Craney Island. Funding would allow for critical dike raising activities at Craney Island required to meet inflows during the fiscal year. Dike raising activities will be performed by task order under an earthwork IDIQ contract, with multiple task orders to be issued each year. It would also allow annual maintenance dredging of up to 900,000 cubic yards from the Norfolk Harbor and Craney Island reaches to a maintained depth of -55 feet mean lower low water, perform channel maintenance dredging of 100,000 cubic yards from the middle and lower reaches of the Southern Branch of the Elizabeth River to maintained depths of -35 and -40 feet mean lower low water, respectively, and perform other necessary upland placement site maintenance activities including dewatering and dike maintenance to ensure dike safety and water quality compliance. Failure to maintain the channel would create draft limitations affecting commercial shipping to and from The Port of Virginia.

May 2, 2024

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Norfolk Harbor Operations and Maintenance project in fiscal year 2025. The entity to receive funding for this project is the Virginia Port Authority. The funding would be used for critical dike raising activities at Craney Island required to meet inflows during the fiscal year.

The project has a federal nexus because it is authorized by the Rivers and Harbors Act of 1876 as modified by subsequent Rivers and Harbors Acts and the Water Resources Development Act of 1986 (P.L. 99-662). The Craney Island Dredged Material Management Area was authorized by the Rivers and Harbors Act of 1946 (P. L. 79-526).

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Jen Kiggans
Member of Congress

Project Name:

Norfolk Harbor and Channels, VA (Elizabeth River and Southern Branch); U.S. Army Corps of Engineers

Recipient Name:

Virginia Maritime Association

Member Name:

Congresswoman Jen A. Kiggans

Amount Requested:

\$4,000,000

Project Justification:

This is a continuation of FY24 PED funding. Norfolk Harbor is a vital center of international maritime commerce, military power and shipbuilding. The Elizabeth River and Southern Branch segments are the upstream channels that connect to the 55-foot channel. The Norfolk District completed a feasibility-level validation study and Director's Report in 2018. The recommended project consists of deepening the 40-foot channel on the Elizabeth River and Southern Branch to depths of 45 feet and 42 feet, and a portion of the 35-foot channel on the Southern Branch to a depth of 39 feet. These deeper channel depths would allow vessels to fully load the various commodities that move in and out of the waterway. The Virginia Port Authority (VPA) is the non-Federal sponsor.
