Dear Chairwoman DeLauro and Ranking Member Granger,

I am requesting funding construction costs related to the Ames Waterline Project. The entity to receive the funding for this project is the City of Enid, located at 401 W. Garriott Rd., Enid, OK, 73701.

The replacement of existing waterline, as well as the addition of the new treatment plant will supply quality drinker water to 75,000 people who live in or near Enid. The upgrades provided to the nearly seventy-year-old infrastructure will maintain reliable water supply to the people of Enid, Oklahoma, Vance Air Force Base, and surrounding areas.

I certify that neither I nor my immediate family has any financial interest in this project.
