Dear Chairwoman Delauro and Ranking Member Granger,

I am requesting funding construction costs related to the Kaw Lake Water Supply Project. The entity to receive the funding for this project is the City of Enid, located at 401 W. Garriott Rd., Enid, OK, 73701.

The project will secure the long-term future water supply for Enid and surrounding region for the next 50-100 years. The project will initially provide 10.5 million gallons per day of surface water to mix with well water to treat and provide for the potable water needs of Enid, Vance Air Force Base and surrounding communities.

I certify that neither I nor my immediate family has any financial interest in this project.

Frank Lucas
Member of Congress
