Dear Chairwoman Delauro and Ranking Member Granger,

I am requesting funding for the Lugert-Altus Irrigation District in Fiscal Year 2023. The entity to receive funding for this project is the Lugert-Altus Irrigation District, located at 1421 E County Rd 165, Altus, OK 7352.

The need for this project is supported by a 2005 Bureau of Reclamation study that highlighted the significant water loss that is occurring as a result of aged infrastructure. The identified 17 miles that is the focus of this project is the highest priority in terms of modernization of the Lugert Altus Irrigation District. In a water stressed region, modernization of this project brings economic longevity and sustainability to one of the region’s top economic drivers.

I certify that neither I nor my immediate family has any financial interest in this project.

Frank Lucas
Member of Congress
