

Congress of the United States
Washington, DC 20510

March 27, 2026

The Honorable Tom Cole
Chair
Committee on Appropriations,
U.S. House of Representatives
Washington, DC 20515

The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations,
U.S. House of Representatives
Washington, DC 20515

Dear Chair and Ranking Member:

I am requesting \$3,490,000 in funding for Pump Station 72 Stormwater and Drainage Improvements in Fiscal Year 2027. The entity to receive funding for this project is the City of Wilton Manors, located at 2020 Wilton Drive, Wilton Manors, FL 33305 with the project location taking place at Wilton Manors, FL 33305.

The City of Wilton Manors is requesting \$3.49 million to construct a 16,000-gpm stormwater pump station and replace approximately 2,700 linear feet of stormwater infrastructure in a low-lying neighborhood vulnerable to tidal flooding and extreme rainfall. The project will protect over 12,000 residents from roadway flooding and property damage while improving emergency access and strengthening climate resilience in Broward County. This investment will reduce future disaster recovery costs while protecting critical infrastructure and residential areas in one of South Florida's most flood-prone coastal communities. By proactively investing in flood mitigation infrastructure, this project represents a cost-effective approach to reducing future disaster assistance costs while protecting a vulnerable coastal community.

The project has a federal nexus because the funding provided is consistent with purposes authorized by 42 U.S.C. 5305(a)(1).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Jared Moskowitz
Member of Congress
