

Congress of the United States

Washington, DC 20515

March 20, 2026

The Honorable Tom Cole
Chair
House Appropriations Committee
H-305 Capitol Building
Washington, DC 20515

The Honorable Rosa DeLauro
Ranking Member
House Appropriations Committee
1036 Longworth House Office Building
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

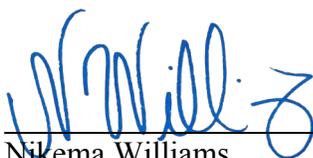

I am requesting funding for the Westview Community Stormwater Initiative Project in Fiscal Year 2027. The entity to receive funding for this project is the U.S. Army Corps of Engineers, and the project is located on Willard Avenue, SW, in Atlanta, GA 30310.

The funding would be used for installing stormwater pipes and appurtenances to adequately manage stormwater. The series of stormwater infrastructure improvements will address chronic flooding in the historic Westview Community in southwest Atlanta. The project is an appropriate use of taxpayer funds because the Westview Community has been plagued with incidents of flooding that have impacted not only quality of life, but presented increased health and safety occurrences that must be mitigated. These issues have been amplified with the onset of more frequent and intense storm events.

The project has a federal nexus because the funding provided is for purposes authorized by Section 219 of the Water Resources Development Act of 1992 (WRDA 1992; P.L. 102-580).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Nikema Williams
Member of Congress
