April 26th, 2021

Dear Chair DeFazio and Ranking Member Graves:

I am requesting funding for the Reconstruction of Main Street from Elm Street to Madison Street in the surface transportation reauthorization legislation.

The project sponsor for this project is the City of Staunton and the project is located at Main Street from Elm Street to Madison Street, Staunton, IL 62088. The funding is designated for roadwork along Main Street including replacing the road surface, curbs and gutters, sidewalks, and lighting between Elm Street and Madison Street.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits. It will replace old, deteriorated road surface that needs replacement. Main Street is Staunton's downtown business center and this project will serve to bolster economic development. It will also improve safety of pedestrians and citizens through improved sidewalks and lighting. The road is also a designated truck route so it will facilitate continued truck traffic through the community.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Rodney Davis
Member of Congress
